# Frequently asked questions

Under the health reform law, health plans must cover certain medications as recommended by the U.S. Preventive Services Task Force (USPSTF) A & B Recommendation and the Health Resources & Services Administration (HRSA) women's health guidelines, including FDA-approved prescription and over-the-counter (OTC) contraceptives for women at 100% without charging a copayment, coinsurance or deductible when:

- Prescribed by a health care professional, and
- Age and/or condition appropriate, and
- Filled at a network pharmacy

To comply with these regulations, UnitedHealthcare offers this list of \$0 cost-share Preventive Care Medications.

## Which preventive care medications are available at \$0 cost share?

Refer to the list in this document, sign in to [myuhc.com](https://myuhc.com), or call the toll-free member phone number on your member ID card for a list of medications covered at \$0 cost share.

Please note, in order to obtain coverage at no cost for preventive care medications and products (including over-the-counter), you will need a prescription from your health care professional.

Your **medical benefit** will also cover other forms of birth control such as IUDs, implants and surgical sterilization (having your tubes tied).

## What if my plan has a religious or moral exemption for covering contraceptives?

Some plans may not have coverage for contraceptives if your employer or plan sponsor elects a religious or moral exemption under applicable law. However, you will still have coverage at \$0 cost share of the U.S. Preventive Services Task Force A & B Recommendation medications listed on the Preventive Care Medications list, such as aspirin, tobacco cessation and breast cancer preventive medications.

## Will this drug list change?

Drug lists can and do change, so it's always good to check. You can find updated information by:

- Signing in to [myuhc.com](https://myuhc.com), and going to Pharmacy Information
- Calling the toll-free member phone number on your member ID card

## What if I have a high-deductible or consumer-driven health (CDH) plan?

The same no-cost options on the list applicable to your plan will be available to you if you are in one of these plans. If you fill a prescription for covered products not on your plan's no-cost drug list, you will need to pay the full cost, until your pharmacy plan deductible is reached.

## Are the no-cost Preventive Care Medications available at both retail and mail pharmacies?

Preventive Care Medications are available at both network retail pharmacies and the mail-order pharmacy for plans with a mail-order benefit.

## What if the health care reform law requirements for preventive care medication coverage change?

If the law requiring plans to provide preventive care medications at no additional cost changes, information on how your costs may be impacted will be available to you by:

- Signing in to [myuhc.com](https://myuhc.com), and going to Pharmacy Information
- Calling the toll-free member phone number on your member ID card

## **What if my doctor prescribes a similar preventive medication that is not on this list?**

The health reform law allows plans to use reasonable medical management to decide which product/medications are provided at \$0 cost share. If you choose a no-cost product from the list applicable to your plan, your cost at the pharmacy will be \$0. If you choose a covered product/medication that is not on the list, a copay or coinsurance may be required. And this cost will apply to your deductible if you have one.

You can ask your doctor for a prescription for one of the medications on this list that your doctor feels would work for you. For some medical reasons, your doctor may decide you need a medication that is not on this list.<sup>5</sup> If so, you can request the medication you need by calling the toll-free member phone number on your member ID card, and asking how to obtain coverage at no additional cost.

Your doctor may visit [www.uhcprovider.com](http://www.uhcprovider.com) for details on how to submit and what information to include with

**Patient Protection and Affordable Care Act \$0 Cost-Share Preventive Medications Exemption Requests.**

<sup>1</sup> Please note this list is subject to change.

<sup>2</sup> Always refer to your benefit plan materials to determine your coverage for medications and cost share. Some medications listed on the PDL may not be covered under your specific benefit. Where differences are noted, the benefit plan documents will govern.

<sup>3</sup> All brand-name medications are trademarks or registered trademarks of their respective owners.

<sup>4</sup> Generally state insurance laws do not apply to ASO ERISA groups.

<sup>5</sup> When informed by a member's health care provider, UnitedHealthcare will accommodate a coverage exception request for any member when one of the \$0 cost medications listed on the Preventive Care Medications list may be medically inappropriate as determined by the health care provider for that member and UnitedHealthcare will waive the otherwise applicable cost-sharing for a medication not represented on the Preventive Care Medications list.

## Questions?

Sign in to [myuhc.com](https://myuhc.com) and go to Pharmacy Information or call the toll-free member phone number on your member ID card.
